

# You Need a Deep Well For Irrigating Purposes

Arcadia, Florida, September 9th, 1908

Mr. F. P. Morgan, Arcadia, Fla.

Dear Sir:—I am much pleased with the two deep wells which you have just completed for me. The four-inch one at our home in Arcadia gives an abundant supply of slightly sulphur water.

In the six inch well at the grove the water stands within eleven inches of the surface and our heavy steam pump running three hours at its full capacity did not perceptibly lower the water level.

I am entirely satisfied with both wells and take pleasure in recommending you to all who need deep wells for irrigation or other purposes.

Z. N. Parker.

I have one of the latest and very best well drilling machines manufactured and if water is what you want can guarantee satisfaction. Wells of any size or depth dug on short notice.

## From Brownville

DEAR CHAMPION: Ye scribe was away last week, therefore nothing from the village of DeSoto county. When I say the village this takes in everything. We are the healthiest neighborhood in the county. We have as fine orange groves as there are in the county. We have as fine trucking land as is in the county, and we have the prettiest girls in the county. We are a thrifty people with a fine school building that is capable of accommodating 200 pupils, a church that would be a credit to any neighborhood.

Our school is progressing fine. Prof. Jno. Murphy has demonstrated the fact that he is teacher, and as teacher he is ruling the pupils. Every parent should do his duty and stand by him. The pupils will be the beneficiaries in the future.

Mr. Andrew Moore sold out his bakery business in Ft Meade and returned to Brownville last week. He says old DeSoto is good for him.

Miss Ada Odom, who has been spending the summer at Bailey Springs, Alabama, passed through Brownville Saturday night enroute for her home in Ft. Myers. Ada has a host of friends in Brownville who welcome her back to the land of flowers. We hope she did not lose her heart whilst at the Springs. She is a very accomplished musician.

Prof. W. J. Odom was a welcome visitor at Brownville Sunday. If the Professor continues to increase in averduois he will have to have a made to order.

Oranges are developing very fast. The sizes will be larger than last year. No complaint as to splitting that we have heard of.

Mr. Sam Pearce, who lives near

Bowling Green, came down Saturday night to see his better half and little Miss Pearce and his father's family.

Born to Mr. and Mrs. B. P. Pearce, a girl, weight ten pounds, Thursday morning. Praker says the girls suit him mighty well. Quite a freak of nature, all the babies around Brownville are girls this year.

We are glad to note that Mr. J. Z. Hollingsworth is rapidly improving. He has had quite a serious time with siatic rheumatism. The doctors had to put his limb in a straight jacket and confine him on his back for some ten days.

Mrs. Moore is growing weaker every day.

Mr. W. H. Kelley went down Saturday night and spent Sunday with his daughter, Mrs. Weaver in Arcadia.

We are glad to note that Miss Pearl, the Collins, who nursed her so patiently and so long in Arcadia, is stricken with the fever. We hope she may speedily recover.

Pearl is a splendid girl.

Quite a number of our citizens went over to Oak Hill church the fifth Sunday in August to attend the Union Meeting. It was largely attended and we hope did a great deal of good.

Miss Meddie Waldron returned last week from a visit of a month to her sister, Mrs. Ada Sullivan in the northern part of the State.

C. Orr will go the last of the week up in Volusia County on a little pleasure trip. She says she is going to take the Captain with her to attend to the business part of the trip.

Rain every day.

We are glad to note that Prof. Murphy's eyes have improved sufficiently for him to return to his position at the head of our school. Young Husy, who has been in

the employment of Mr. C. C. Pearce for the past twelve months, left this morning for his home in Georgia.

We note in the Wauchula Advocate there is considerable opposition in that part of the county to any further appropriation to the Tampa Fair. NO FAIR MIND-ED COUNTY COMMISSIONER WILL VOTE FOR AN APPROPRIATION UNLESS HE THINKS A MAJORITY OF THE TAX PAYERS WANT IT. THESE PETITIONS SHOULD NOT BE COUNTENANCED.

In November your scribe proposes to write a series of open letters to THE COUNTY COMMISSIONERS, RECAPITULATING THEIR ACTIONS FOR THE TWO YEARS OF THEIR SERVICE. SPLASHER.

## Compensation For Poachers.

A gamekeeper on a northern estate tells an amusing story of the latest thing in the compensation line. When he was escorting the gentlemen round the covert one day the party were alarmed to hear a loud cry just after shots had been fired. Running to the spot, a thick bush growth, the keeper found a man lying groaning on the ground.

"Some of them gents 'ave shot me in the leg," groaned the man. Examination proved that the sufferer had indeed received a bird shot pellet in his left calf. It was a trivial injury, but was handsomely compensated for by the gentlemen in the party, who presented the victim with quite a good sum in gold.

That same evening the gamekeeper came upon two men in a quiet lane engaged in a hot dispute about the sharing of some money. One of the men had a shotgun, and, tapping it significantly, he said threateningly: "Aif shares, or I'll go straight to the p'lice and split on us both. I'll give the game away. I'll tell 'em 'ow I put that pill in yer leg to knock money out o' the shooters."

Then the gamekeeper disclosed himself, and the two conspirators decamped.—London Opinion.

## The Man of the Hour

Horrigan's sneering words. "I don't see any millionaires going to jail," stuck disagreeably in the young mayor's memory. Their brutal, bald truth jarred on his belief in the inevitable triumph of good. After all, was the dreary, self sacrificing battle against an unconquerable foe worth while? Could the great god graft ever be checked in his mastery of the earth? If—

A rustle of skirts startled Alwyn from his dark thoughts. "Dallan!" he cried, unbelieving, as he sprang to his feet half dazed at the wondrous light that transformed her face. Slowly she came toward him, her glorious dark eyes on his, her white hands outstretched in irresistible appeal. At last she spoke. "I love you!" she said.

"I love you!" she said. THE END.

Flattering. "Oh, sir!" exclaimed Nanna, rushing into the drawing room breathlessly and carrying her fourteen-month-old charge, with whom she had been visiting the zoo. "Oh, ma'am, Archibald spoke this morning for the first time!" "Really!" exclaimed the young father, jumping up in excitement. "Do you hear that, Bella? And what did he say, nurse?" "Why, sir, I was showing him a large cage of monkeys when he clapped his hands and called out real plain, 'Papa, papa!'"
